ROUTES

Legend – average wave conditions according to surf level: * Beginner ** Intermediate *** Advanced **** Experienced ***** Pro

Bali – Lombok – Sumbawa – Komodo – Flores *** - ****

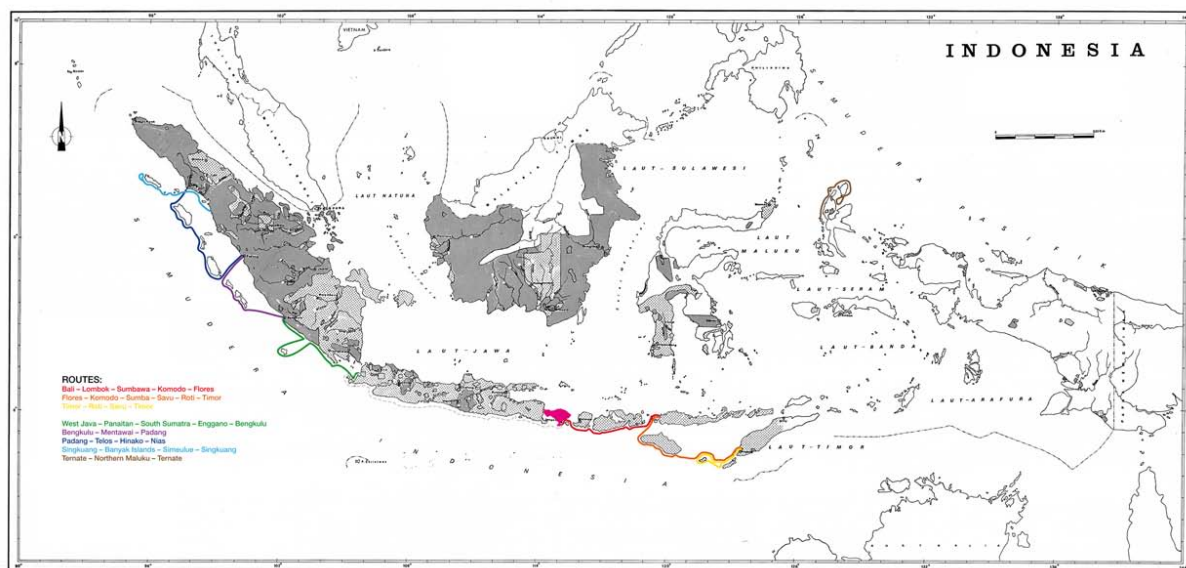

After the highlights in Lombok the SAMA SAMA takes us to the coastline of Sumbawa, home to secret-spots and world famous waves such as the perfect a-frame, Lakey Peak. For the grand finale we then lay anchor upon the shores of Komodo, to explore the depths of its fascinating underwater world, and pay the resident, pre-historic, gigantic lizards a visit.

Flores – Komodo – Sumba – Sabu – Rote – Timor ****

Giant lizards, untouched reefs, perfect lines, point breaks at dawn, virgin beaches at dusk, natives that have rarely seen a tourist and waves that have seldomly seen a surfboard. That's what we're talking about! A route into the pearl of the Indian Ocean!

Timor – Rote – Sabu – Timor ****

Spots unknown to marine charts, solitary beaches, stone-age villages and the island of Rote, famous for one of the most consistent left-hand-waves in this part of the Indian Ocean! Back to the roots!

West Java – Panaitan Island – South-Sumatra – Enggano Island – Bengkulu **** - *****

More spots, more waves, more experiences, more adventure! Let's discover the untouched flora and fauna of west Java, Panaitan Island and the active volcano Anak Krakatau. Surf highlights include Indonesia's longest left on the Sumatran south coast and Enggano's secret spots – an absolute must for every explorer and surfer.

Mentawai Islands **** - *****

The Mentawais are an island group to the west of Sumatra. Due to their extraordinary location, the Mentawais are blessed with literally thousands of waves. Countless islands offer an abundance of waves to a breathtaking, tropical backdrop. Waves, you have probably already seen in various surf magazines or movies, at every swell altitude and wind direction. Macaronis, Telescopes, Thunders, Lances are only a few of the many famous spots we will hit up together.

Padang – Telo – Hinako – Nias *** - *****

On this route, north of the Mentawais, you will cross the equator and cruise along islands with a huge potential of waves, consistent surf, several lefts and rights for all kind of tides and winds including surf spots suitable for the intermediate surf level. Like Nias, an island with more than "only" the world famous right-hander at Lagundri!

Singkuang – Banyak Archipelago – Simeulue – Singkuang **** - *****

Starting from 2011, the SAMA SAMA is heading further North. The Banyak Archipelago is a group of – it is said 99 – mostly uninhabited isles, but home of great surf and world class waves like long deep barrels and nice walls.

Ternate – Northern Maluku Islands– Ternate **** - *****

In cooperation with the publishers of the world famous Stormrider Guide, the SAMA SAMA will explore the easternmost archipelago of Indonesia – the Maluku Islands in the Pacific. The surf potential in this area is enormous and the waves are very consistent between November and March. This trip will guarantee 100 % virgin waves, crystal clear water, beautiful beaches, untouched nature and native culture – get ready and be a part of it!
